

I this commentary I will be looking at one of the many smaller subsets of the much larger "Perfect Storm" prophecy by John Paul Jackson. This individual collection of prophecies is called "The Next Ten Years" and details all the events predicted to happen during the period from 2008 to 2018. Here's the list of prophecies that were giving as well as what's fulfilled and some included cometary. Due note that there are several different versions of this prophecy posted on the web, so I will only be dealing with the one that comes directly from JPJ as the other versions appear to be slightly or heavily modified from the original to fulfill some unknown agenda. Anyhow, here's the prophecy in its original form. Fulfilled prophecies are highlighted.

It may be referring to a fresh, new, or larger outpouring as, while the outpouring itself has been ongoing since Pentecost, the amount of the outpouring has changed based upon demand and the need at that time.
